Public Health

Employment of women vaccinators.

* 524 *Q.*—Mr. K. A. NACHIYAPPA GOUNDER: Will the Hon. the Minister for Education and Excise be pleased to state—

(*a*) whether there are any proposals for employing women vaccinators for conducting vaccination for women since re-vaccination has been made compulsory now; and

(*b*) if so, what they are and at what stage they are now?

A.—The Government have impressed upon local boards and municipal councils the need for employing women vaccinators at an early date in order to encourage and facilitate vaccination and re-vaccination work in communities and castes in which women are very conservative or observe purdah. Since the Government took powers to fix the scales of pay, allowances and strength of the establishments under district boards and municipal councils, they have sanctioned the employment of women vaccinators whenever proposals for the same were submitted to them provided that the local bodies concerned were financially in a position to meet the cost involved.
